WHOLE REGIMENT PATROLS STREETS

Atlanta is in The Hand of
Military Today.

Ten Killed and Forty Wounded in
Race War of Georgia Capital—
Citizens Condemn.

ASSAULTS ON WHITE WOMEN

ANOTHER LYNCHING.

Atlanta, Sept. 24.—Zeb Long, a negro, was lynched at 3 o'clock this morning at East Point for pointing a revolver at Night Marshal Harris at midnight. The city is quiet today. The governor declined to declare martial law for the present. A number of military companies are on guard and few negroes appear on the streets.

Atlanta, Ga., Sept. 24.—It is 36 hours since the race war began in Atlanta. At least ten lives have been sacrificed, and the injured number at least 40, several of whom cannot recover.

Last night the city was controlled by the police, aided by a thousand state militia.

Every part of the town was patrolled by the troops at the largest part of the militia is concentrated downtown. Marietta and Decatur streets, both frequented by negroes, are crowded with white men. The troops constantly, trying to clear the streets, but so far with only fair success.

Very few of the better class of the citizens who are called out by necessity are on the streets tonight. More than 50 arrests of members of last night's mobs have been made, charging incitement to riot. A bond of \$500 was required in each case. No names of prominence are in the list. Of the dead it is impossible to get names, only partial lists have been prepared and no two agree.

With but few exceptions the day passed without serious trouble, following the riots Saturday night, when, as a result of several assaults on white women by negroes, a mob of white men marched to the negro section of the city and started beating and killing all the blacks they encountered.

Unconfirmed rumors of several white men killed by negroes and a negro being torn to pieces by enraged whites are heard.

Governor Terrell, Saturday night, ordered to Atlanta seven companies of militia two companies from Macon and one each from Jackson, Barnesville, Griffin, Rome and Lindale. These are now on duty in the streets.

With the local companies of militia here the number of troops is something more than 1,000 besides a battery of light artillery.

Although urgently requested from many sources to declare martial law, Governor Terrell declined. He said that if scenes of last night are repeated he will not hesitate to put the military in supreme control. Mayor Woodward urged that the city and county police, with the militia, was amply able to handle the situation. The local soldiers and police who have been on duty since midnight, are held in reserve tonight.

Mayor Woodward issued a request that all citizens, white and black remain off the streets. He announced he will order the saloons closed today. Boys under 21 are ordered to keep off the streets.

A meeting of bankers, business and professional men was held this afternoon. Governor Terrell, Mayor Woodward, Colonel Robert Lowry and Colonel James English were present. Speeches were warmly applauded in which the killing of innocent negroes and the injuring of a score or more whites and blacks was condemned as a reflection of the city, state and the south.

Jellico Recovering.

Jellico, Tenn., Sept. 24.—Jellico has commenced repairing property damaged by the dynamite explosion Friday, business being resumed. The bodies recovered were buried. Armed men continue to guard the town.

Mr. Given Fowler went to Louisville last night on business.

It is the daily average circulation of a newspaper that the shrewd advertiser investigates—"High Water" days don't count. The Sun's daily average last month was 3940.

ENTIRE BAR FOR THE DEFENSE

Shooting Affair Leaves County With No One to Prosecute Case.

Jefferson City, Mo., Sept. 24.—A queer situation has developed in Hickory county. William A. Dollard, hide, prosecuting attorney of the county, became involved in a shooting affair and every lawyer in the county has been retained for the defense, leaving no one to prosecute the case before a grand jury, which has been called to meet Monday. Circuit Judge Cox has called the attention of the governor to the matter, and the attorney general has detailed Mr. Gentry of his office to act as the state's representative.

HORSE SHOW BOXES

WILL BE SOLD AT THE PALMER TONIGHT AT EIGHT.

The Demand for the Boxes Indicates a Great Deal of Interest in Event.

The boxes for the horse show will be sold at auction in the lobby at the Palmer House tonight, and from present indications they will go with a rush.

It is gratifying to the association to see the demand for the boxes, and they expect to sell every one of them at the sale. Several people have orders now for from six to eight boxes a piece and there are numerous orders from out of town, and the bidding will be liberal. However the association has provided a good number of boxes and hopes to have enough to go around.

The box seats are by far the best seats to be had for all purposes. The owner won't have the annoyance of rushing out early in the evening to be sure of a good seat, as the occupants of the reserve sections do, and too, the boxes are nicely arranged for viewing the ring, and comfortably decorated.

The prices at which the boxes are expected to sell, too, will make them the cheapest seats of all.

The sale will be held at 8 o'clock.

STENSLAND'S RETURN.

His Ship Sighted Off Fire Island This Morning.

New York, Sept. 24.—The Hamburg-American liner Prinz Adelbert, from Mediterranean ports with Paul O. Stensland, the alleged Chicago bank wrecker aboard, was sighted off Fire Island today. The vessel will reach quarantine this afternoon.

TO STEAL BRYAN

CREW OF PADUCAH TRAIN STARTS OFF WITH HIS CAR.

Standing on Same Track Mistake Is Made, But Corrected in Time By Trainmen.

How near Paducah came to be the unassuming host of great man yesterday is told by the following from the Cairo Bulletin:

The crew of the Paducah train on the Illinois Central yesterday were caught in an attempt to steal Billy Bryan's train last evening. The two trains were standing end to end on the same track and somehow became connected, and when the Paducah train pulled out it was about to take Bryan's train along. Billy was not there at the time, but his lieutenants were on watch and they saw his train moving out wrong end first they protested with much enthusiasm and with effect. The Paducah train was stopped before it had gone very far and Billy's train was sent in its usual direction with an engine of its own.

Mrs. James Hubbard, of 315 Norton street, today has gone to Cairo, Ill., where she will be the guest of relatives and friends for several days.

IMMIGRATION NEWS GROWS PLENTIFUL

Last Bid Being Made For Attendance at Convention.

Paducahans Carry Horse Show and Convention Heralds Into the Country.

AGENT IS BUSY IN AUSTRIA

A letter received from Andrew H. Veltschberger, representative of the immigration bureau, now in Austria securing families for Western Kentucky, states that he has received his credentials from the state of Kentucky and will present them to the government today. Later this week he expects to advise the Commercial club when he will start with the immigrants.

Tomorrow a party of Paducahans will go to Kevil and Wickliffe and intermediate points. They will distribute horse show and immigration news to the people.

A last bid is being sent out to West Kentuckians by the promoters of the immigration convention for attendance at the meeting October 4 and 5, in the form of a circular letter, and another is addressed to Paducahans urging them to help entertain the delegates. The letter is as follows:

On the 4th and 5th of October our immigration convention will be held at the Kentucky opera house. Hundreds of delegates have pledged to attend from outside the city.

As this convention and the results from it can be made of invaluable benefit to you and all other good citizens, we appeal to you to arrange your time for the 4th and 5th, so that you can be in attendance during the entire session and co-operate with us and take an active part in bringing about an organization that will insure great results for Paducah.

The convention will be called to order on the morning of the 4th, at 10 o'clock sharp, and you are earnestly requested to be present at that time.

HEARST

AGAINST THE FIELD IS SITUATION IN NEW YORK.

Enters Convention With Largest Number of Instructed Delegates in Years.

Buffalo, Sept. 24.—It is Hearst against the field today. It is practically conceded that the New York editor has at least 125 instructed delegates, the largest number with which any candidate has entered the Democratic convention in years. The field is composed principally of Judge Gaynor, Jerome, Mayor Adams, of Buffalo, and Congressman Sulzer.

Higgins Out of Race.

Saratoga, Sept. 24.—Governor Higgins has declined re-nomination for governor of New York. The convention meets tomorrow. Politicians are all at sea in the selection of candidate.

BIRD SONGS OF BOYHOOD LURE

Tacoma Physician Brings Feathered Singers From Ireland.

Denver, Sept. 24.—So that he could listen in his old age to the sweet songs of the birds which lulled him to rest when he was a boy, Dr. Charles McCutcheon, a prominent physician of Tacoma, went all the way to Ireland to get the native warblers and is taking 200 of them back to his home. Dr. McCutcheon, who is superintendent of the Padoc Memorial Hospital in Tacoma, is visiting a relative in this city on his way west. The climate in Tacoma, he says, is similar to that in his old home in Ireland. Dr. McCutcheon was born in the county of Wexford, and his boyish hobby was birds. Now that he is wealthy he returns to the old love.

Cranberry Pies Will Be Plentiful.

New York, Sept. 24.—Cranberries of which there was a short crop last year, promises to be plentiful this season. Wholesale prices are now \$5.50 and \$6.00 for 100 quarts, as against \$28 in April for the last of the 1905 crop.

BLACKSMITH KILLS MAD DOG, BREAKING THE ANIMAL'S NECK.

With presence of mind and courage the match for his strength of arm, Riley Pitman, the well known blacksmith, caught a mad dog with his bare hands at noon today near Third and Clark streets and broke the creature's neck. The dog was snapping at people along the street, and, running into the yard of C. E. Miller, 216 South Third street, bit Mr. Miller's five-year-old daughter on the hand. Mr. Pitman witnessed the episode and seized the dog, which everybody else avoided. It bit his hand but he caught hold of the dog's hind legs and whirled it around, striking its neck on the curb and killing it instantly. A physician cauterized the wounds of both victims. After the deed a dozen men came running with guns to kill the dog.

ON THEIR RECORD REPUBLICANS RUN

Old Members Will Be Renominated, It Is Believed.

With Full Ticket Out and Good Man for Judge, Success is Counted On.

CONVENTION DATE NOT SET

Following the Democratic city primary interest has centered on the probable make-up of the Republican ticket. Unless some of the present officials decline further municipal honors, the major portion of the ticket will not be hard to guess, as the present members of the board of councilmen and aldermen and the school board seem to have properly represented their constituents, and in the opinion of most Republicans are entitled to a second term, if they desire it.

The record of this general council is unexcelled in the history of Paducah. Progress and economy properly blended have marked the course of administration, and while miles of sidewalk and street paving and sewers have been built under its instruction, the members have guarded the funds, and every complaint made has been at the close watch set on the treasury. Not a breath of scandal has reached the ears of the people and the action of the council has been open to all.

Tried in the balance of reform the council has ever been found standing unflinchingly for the right, while at the same time, no one could brand the legislative department as radical. The board is conservative and the personnel above the control of any man.

Several members, dissatisfied with public life have said they will not seek another nomination, but it is believed they will stand for election if the party in convention wills that they should.

There are four vacancies in the board of aldermen, the retiring members being: President O. B. Starks and Aldermen E. E. Bell, John Farley and W. T. Miller.

There are two vacancies in the Fourth ward representation in the council, one of them being created by the resignation of Councilman Dipple, making seven places to be filled this fall. The retiring councilmen are: President McBroom of the First ward, and Councilmen Ochelschlaeger, Second ward; Kolb, Third ward; Katterjohn, Fourth ward; Hill, Fifth ward, and Barnett, Sixth ward.

From the school board the following retire: H. Gallman, First ward; President H. F. Williamson, Second ward; Secretary W. H. Pitcher, Third ward; P. Beckenbach, Fourth ward; L. Petter and W. T. Byrd, Fifth ward, and Dr. J. S. Troutman, Sixth ward.

A full ticket will be nominated, and it is urged that those aspiring to the different offices announce themselves to the people. A candidate for police judge, who will appeal to the better element of the people, will no doubt, be nominated and the prospects are bright for the election of the whole ticket.

It is not yet determined whether the convention will be held before or after registration, October 2.

TALK ABOUT PEACE AND PLAN FOR WAR

Situation in Cuba Extremely Critical.

With Sunday Came First Ray of Hope for Ending Trouble Without Intervention.

COMMITTEES ARE APPOINTED

Havana, Sept. 24.—While talk in Cuba is all for peace, preparations on all sides are for warfare more active than at any time since the arrival of the American peace commissioners. It is generally conceded that the action of the government in bringing Colonel Avalos' men to Cuany may cause a battle at any moment. The only interpretation put upon this movement is that the government wished to cause trouble, which would force active intervention by the United States. The situation undoubtedly is critical.

Havana, Sept. 24.—Keen disappointment is expressed on every side because of the likelihood of peace without armed American intervention.

That the differences of the opposing factions could be reconciled was not generally believed until today, when it was announced that the Liberals and Insurgents had empowered committees to represent them before the American mediators.

It is evident that the business interests of the island have no confidence in the ability of the Cubans to rule themselves. They now are openly favoring intervention and possibly annexation. Taft is cognizant of this opinion, but considers it the duty of the United States to give the Republic another chance and believes it had policy for the United States to keep a force in Cuba longer than is required to supervise the laying down of arms. He said today that if the Liberals and Moderates harmonize their differences the United States must regard the compact as made in good faith.

WATERSPOUT

STRUCK STERN OF PACIFIC STEAMER NEAR MEXICO.

City of Sydney Had Her Stanchions Wrenched Away But Weathered the Storm.

San Francisco Sept. 24.—Almost by a miracle the Pacific mail steamer City of Sydney, which arrived here, escaped wreck in a huge waterspout off the Mexican coast, near Acapulco. The waterspout struck the stern of the vessel, wrenching away the stanchions and throwing the passengers into a panic. The spout swept with rapidity of whirlwind but the ship weathered it.

JOHN D. INTO IT.

He and Harriman Plot to Get the B. & O.

New York, Sept. 24.—The World today states that negotiations are in progress between E. H. Harriman, William Rockefeller and the Smith estate, by which control of the Chicago, Milwaukee & St. Paul railroad may be turned over to the Union Pacific and Southern Pacific companies. Upon the success of these negotiations depends the carrying out of the deal by which the B. & O. will become part of the Union Pacific.

The World says this statement was made by a high Wall street authority who predicted that within sixty days the terms of the deal would be made known.

SUES UNIVERSITY TO GET SON

Michigan Man Begins Action Against Notre Dame.

South Bend, Ind., Sept. 24.—John M. Williams of Hillsdale county, Michigan, today began proceedings in the circuit court to compel the University of Notre Dame to surrender the custody of his son, who was placed in the university by the mother. Williams, when divorced by his wife, lost the custody of the boy, but on carrying the case to the supreme court the custody was reversed, hence the habeas corpus proceedings.

SENATOR BAILEY WORRIES FRIENDS

Cannot Conceive of His Selling Out Honor.

Baltimore Sun Comments on His Employment by Standard Oil Company.

NEWS OF NATIONAL CAPITAL

Washington, Sept. 24.—It is inconceivable here among the friends of Senator Bailey, who have so long watched with admiration his brilliant public life, always on the side of the people against the aggressions of capital, that he should have accepted a legal fee from any company, knowing that it came to him by reason of his official position or the influence he brought to the bar because he was a member of the United States senate.

It is more conceivable that Senator Bailey was legally employed because he was known to be familiar with state statutes and one of the great constitutional lawyers of the day. Nearly half, if not two-thirds, of the senate is made up of lawyers, most of whom have a large legal practice, and it is unjust to suppose that this practice has been obtained only by virtue of their offices.

The amount of fees received by these practicing senatorial attorneys cuts no figure in the case. Some of the senators work hard at their legal profession during the interim of the senate sessions and do not make as much as their salary from the government, while others realize large fees, especially those who look after corporation interests.

It would be best if all of the latter should be disqualified of seats in the senate, for as Mr. Bryan says, it is hard to serve two masters. These days a man of brains and capacity cannot afford to serve as a senator without he has outside competence. His salary would not pay his actual living expenses at Washington.

While the government is squandering millions upon millions a year at home and in its possessions, it should at least double the pay of its lawmakers so that they would have no good excuse to go outside for a living. In fact, the rapid pace we are going is pretty tough on a poor man. Be he ever so worthy, popular and meritorious, he is cut off from holding office either by excessive entrance fees in a primary election or the exactions upon his salary when elected.

But returning to Senator Bailey, the Baltimore Sun, in its leading editorial today, believes absolutely in his innocence and concludes as follows:

"It is to be hoped that Mr. Bailey will pass through this ordeal without even the smell of fire on his garments and satisfy his people that all his conduct has been sincere." He is one of the ablest of American statesmen and his ability is recognized. If his great gifts and attainments should prove to have been used against the people, whom he professes to serve, it will make a profound impression upon the country and tend to destroy confidence in public servants."

In Civil Service. Simplified spelling in civil service examinations will be accepted the same as the old style, according to an order just issued by the civil service commissioners. Many inquiries on the subject reached the commission from persons desirous of taking examinations for the governmental service who were fearful lest they should suffer in percentage of efficiency.

KILLED FRIEND

Mistaking Him for Negro With Whom He Had Quarreled.

Marion, Ill., Sept. 24.—Mistaking him for a negro, with whom he had quarreled, A. E. Farley, ambushed and killed his friend, Adolph Williams, at a railroad camp near here. The murderer fled and was captured after a long chase, in which bloodhounds were used.

Fair tonight, Tuesday increasing cloudiness. The highest temperature reached yesterday was 87 and the lowest today was 66.

CURE FOR HEADACHE IS FATAL.

St. Louis Woman, Leader in Humane Work, Killed by Chloroform.

St. Louis, Sept. 24.—Mrs. Herbert B. Calkins was found dying in bed this morning. She did not regain consciousness. Death was due to chloroform inhaled to relieve headache, from which she was a great sufferer. Mrs. Calkins was president of the Humane society and a terror to teamsters who abused their horses. She was the wife of a former general agent of the Wells-Fargo Express company. The family removed here from Omaha several years ago and later built a home at Glendale, a suburb.

STABBED IN BACK

WAS HARRY GILLIAM AT WALLACE PARK YESTERDAY.

Bert Roberts, Refugee From State Reform School, Said to Be His Assailant.

Harry Gilliam was stabbed, it is said, by Bert Roberts, the latter a refugee from the reform school at Lexington, at Wallace park yesterday afternoon, but not seriously injured. The fight drew hundreds of patrons of the park to the scene, but the boys had run away and could not be found. Captain Moore, the park detective, is looking into the matter but evidence is hard to secure. The Gilliam boy is said to have been quarreling with a companion of Roberts' when Roberts ran up behind him and stabbed him in the back with a knife.

Bert Roberts is about 14 years old. He was sent to the reform school for three years for mixing up in a robbery case and escaped, after serving nine months. He had been back to Paducah one year and on account of his conduct he was unmoored. Arrests will be made today, and the case will be brought up in Magistrate Charles W. Emery's court.

HEAD MISSING

And Identity of Dismembered Body Remains Mystery.

New York, Sept. 24.—The mystery of the murder of the headless body found in East river yesterday is still unsolved. The only development this morning was the finding of one of the missing leg joints in a bundle between two freight cars. The victim was a foreigner, but his identity cannot be established until the missing head is found.

BURGLARS

ENTER TWO HOUSES THROUGH REAR WINDOWS.

Thirty Dollars Taken From One Residence and Food From Another—No Clue.

After a lull in the burglary business, the storm broke loose again last night and two robberies were reported to the police.

Mr. Pinkney Evans, residing in Rowlandtown, reports that some one entered his home between 8 and 9 o'clock last night and took \$30. The money was in bills of the denominations of \$20, \$5 and \$1, and silver.

Some one visited the residence of Mr. C. H. Lock, 518 South Thirteenth street, and stole provisions. No money was taken.

In both cases entrance was effected through the rear of the house.

Helena Is All Right.

Washington, Sept. 24.—A bulletin was published this morning, stating that the United States gunboat Helena reported sunk on China coast with all aboard, arrived at Shanghai. The department is unable to account for the reported disaster to the Helena. She left Cavite September 15, somewhat delayed by stress weather.

CHICAGO TO GULF WORK IS NEEDED

Must Keep River In Banks to Maintain Deep Channel.

Some of the Benefits South Will Derive From Better Waterways.

TO CONGRESSMAN HUMPHREYS

Washington, Sept. 24.—The cause of cheap water transportation and efficient rate regulation through the improvement of the rivers and harbors of the country is daily gaining strength here. Prominent men of both parties are hastening to identify themselves with this non-political movement, among the latest to express themselves being Congressman B. G. Humphreys of Mississippi, who, in an interview just given out, deals with the practical benefits which would accrue from a successful support of the work of the national rivers and harbors congress, the organization which is striving for the increased appropriations necessary to the work.

The improvement of the Mississippi river naturally is of the greatest importance to the people in my part of the country," said Mr. Humphreys. "The levee system has to a large extent been kept up from local sources. The proportion now is about \$2 from the local people where the national government puts in \$1. My district alone has put into this work in the last 22 years \$15,000,000 and there have been reclaimed from overflow 6,000 square miles in my district alone. But while our levees demand attention, we are most vitally interested in the project for a 14-foot waterway from Chicago to the gulf, a fact which emphasizes the point that river and harbor improvements are of more than local importance.

"The interest of the dwellers on the lower Mississippi in the improvements on the upper Mississippi is direct, especially the people who maintain the levees. We cannot maintain a 14-foot channel from Chicago to the gulf without first forcing the river to keep in the same channel, and that cannot be done if the banks are permitted to cave in, bends to be formed and cut off, and the channel allowed to shift from this side to that. A 14-foot channel necessarily means a permanent bank, in other words, a permanent levee. Under present conditions the cost of rebuilding levees that cave into the river is tremendous, and for this reason alone the levee man is vitally interested in the 14-foot project. Projects for river and harbor improvements are all related to the balance of similar projects in other sections of the country, and the matter of appropriations for river and harbor improvements must be considered a national and not a local cause."

"Something of the effect of river transportation on freight rates appears in the fact that points which have communication with New Orleans by the Mississippi can ship cotton 300 miles for \$1 to New Orleans, whereas from points 200 miles from Galveston, where there is no communication by water, the rate is \$3 per bale.

"An illustration of the necessity of water transportation to some sections of the country was impressed upon me in connection with the upper Sunflower river. There the rains start in about Christmas and render the roads running back from the river to the railroad absolutely impassable. The fact that the immediate bank of the river is higher than the country farther back, as is true in all alluvial countries, is chiefly responsible for this situation. The effect was that when I visited that country in July I saw piled up there the seed cotton, that is, the unginned cotton of the year before. It had been impossible to get that cotton to the gin because the river was in such conditions as not to furnish facilities for transportation. Those poor people have to depend on their cotton for their subsistence, and as it was they were living on credit, which means paying a double price for their daily necessities."

"As a guide in making river and harbor appropriations, the rule was established that only \$400,000 out of the twenty millions of the appropriation should be spent on streams bearing less than \$100,000 of freight a year, but as a matter of fact such streams are entitled to greater consideration, and it does not follow that because a stream is insignificant now it is going to be so tomorrow. Thus, while some years ago the Sunflower had a tonnage of only 38,000 it had last year a tonnage of 138,000. The same applies to many other rivers."

There is, indeed, a general willingness to recognize the necessity of

ROCKFORD INVADDED BY FLEAS

One Family Closes Handsome Home to Possession of Insects.

Rockford, Ill., Sept. 24.—Two Rockford families are having their troubles with fleas, and as all recommended remedies have failed to rid the residences of the insects, the situation is becoming alarming. The fleas invaded the Garner home on College avenue several days ago. After many efforts to drive out the pests had been made in vain, the house was closed and fumigated with sulphur. When this treatment failed and the fleas continued to increase, the family gave up and left their handsome home in possession of the insects. The Clark residence, adjoining, also has been invaded.

"I am in thorough sympathy with the purpose of the national rivers and harbors congress. The only way in which all the worthy projects now before congress can be cared for is to increase the total of the rivers and harbors bill to at least \$500,000,000 a year. The purpose of the rivers and harbors congress is to keep this subject before the public, and in that way, create a sentiment throughout the country that will necessarily be reflected in congress. I commend it most heartily to every community that wishes and hopes for national aid in any river or harbor of this country. We can do anything with a proper organization, but

FOUR DAYS

WILL COMPLETE TERM OF MARSHALL CIRCUIT COURT.

Judge Reed Has Docket Well Cleaned Up and Expects to Finish in Record Time.

Circuit Judge William Reed intends to make a record breaking run of Marshall circuit court and thinks he will finish this week. He stated at the train this morning that he expects to finish court in four days, as he cleared the docket last term and there is little "new business" on hand.

This morning the grand jury was empaneled and Judge Reed returned to Paducah at 1 o'clock this afternoon. Tomorrow he will empanel the petit jury and start the trial of regular cases. The Marshall circuit court is mixed, the civil and criminal terms being consolidated.

The most important criminal case to be tried is against Joe Daniels for the alleged theft of railroad cross-ties from the Holcomb-Loeb Tie company. This case was continued from last term.

Dissolution of Partnership.

We, the firm of C. L. Robertson and G. A. Gardner, doing business at 116 Broadway, under the firm name of Robertson and Gardner, contractors and builders, of streets, pavements, and sewers, have this day dissolved partnership, by mutual consent.

This given in our hands the 22nd day of September, 1906.

C. L. ROBERTSON,
G. A. GARDNER.

All parties having accounts against the above firm present to me for collection. Parties indebted to above firm must call and settle at once. Respectfully,

C. L. ROBERTSON, Office 116 Broadway.

SHE FOUND RELIEF.

If you are troubled with liver complaint and have not received help read this. Mrs. Mary E. Hammond, Moody, Texas: "I was in poor health—liver trouble—for over a year. Doctors did me no good and I tried Herbine, and three bottles cured me. I can't say too much for Herbine, as it is a wonderful liver medicine. I always have it in the house. Publish where you wish."

Nearly 70,000 tons of cork are needed for the bottled beer and aerated waters consumed annually in Britain.

FORECAST OF THE WEEK.

The forecast for the coming events of the present week follows: Although the situation in Cuba has not improved since the arrival of Secretary Taft, but has, if anything, become more serious, the secretary has not given up hope that a settlement may be found without disturbing Cuban independence.

Two exciting contests for party control will be formally ended this week when the state conventions of the Democrats at Buffalo and the Republicans at Saratoga adjourn. Both meet Tuesday. Interest in the Democratic gathering centers in the movement to demand the nomination of William R. Hearst for governor. So far it is not known what the New York county delegation, 195 strong, will do. Charles F. Murphy, leader of Tammany, having declined to indicate. State Senator Patrick M. McCarthion, a Democrat of Brooklyn, is out for Supreme Court Justice Gaynor, and Congressman Timothy D. Sullivan, of Tammany, has declared for Congressman Sulzer. There also is a strong movement for the nomination of Mayor Adam, of Buffalo.

In the Republican ranks the main question is whether Governor Higgins desires a renomination. It is generally believed, since last Tuesday's primaries in which former Governor Odell lost control, that Governor Higgins can have the renomination if he wants it. He is expected to make a statement of his position Monday.

Another big sea fighter will be added to the active force of the United States navy Saturday, when the battleship Connecticut goes into commission at New York navy yard. The Connecticut has a displacement of 16,000 tons and the contract speed is 18 knots an hour. When in commission she will have a complement of about 900 officers and men. The armament includes four 12-inch, eight 8-inch, 17 5-inch and 20 3-inch guns besides the run of smaller caliber. The keel was laid March 10, 1903.

The central board of foot ball officials meets in New York Friday.

IN CANAAN

ANOTHER CUTTING SCRAPE OCCURRED YESTERDAY.

Five Natives Are Under Arrest for Breach of Peace—Malicious Cutting.

There was another general fight in "Canaan," a negro settlement just south of the Sowell mill in Mechanicsburg, and as a result five negroes are under arrest, one charged with malicious cutting and all charged in a magistrate's court with breach of peace.

Last night Charles Smith, Will Jones, Jim Nicholson, George Hunt and Rose Lee Anderson met. The woman seemed to be the center of attraction and when Nicholson got jealous of her attentions towards another, and started to inflict corporal punishment it was more than Hunt's nerves could stand. He mixed up and Hunt's knife, it is alleged, was brought into play with disastrous results.

Smith was cut in the back, but not seriously injured. He was taken to jail pending an investigation. In the police court Hunt is charged with malicious cutting and in Magistrate Charles Emery's court the five are charged with breach of peace.

CULVERT COMPLETED.

Fill Will Be Made at Cross Creek This Week.

Today the false work is being torn from the concrete culvert on Caldwell avenue over Cross creek and Wednesday the board of public works will formally accept the work. Thomas Bridges' Sons, of Wabash, Ind., did the work and on account of a collapse of the bridge, under which the culvert was built, experienced a little delay. Street Inspector Alonzo Elliott was ordered to fill in the culvert and will start this week. All teams of the street department will be used and dirt carried from all public improvements. It is expected that in another week the fill will be ready for service.

Daily Thought.

"The free man is the one who has fully obeyed the law."

If President Roosevelt is grooming Secretary Taft to be his successor what an original and altogether commendable way he has of advancing the interests of his candidate. Instead of adopting the conventional hot house method of propagation—keeping Mr. Taft under a glass roof, in public view but secure from adverse winds and blighting frosts of active public life—the president actually sends Taft on every hazardous mission he can find. Who else would have thought of sending his favorite candidate for the presidency to settle the friar land disputes in the Philippines or the Cuban controversy? It looks as though President Roosevelt is giving some of his favorites an opportunity to prove themselves, and, by the way, he is developing quite a huge pile of presidential timber. Root is in South America bringing about a better state of feeling than ever before existed between this country and her Latin-American neighbors; Wilson is looking after the pure food laws and the packing houses; Taft is in Cuba bringing order out of chaos in the little republic, and Moody is driving away at the trusts. Collier's already has inaugurated a systematic boom for Root for president claiming that as a diplomatist he is without a peer, and predicting that his capacity for statecraft will be measured only by his opportunities. Collier's calls him the brainiest man in the country.

One thousand soldiers are patrolling the streets of Atlanta, ten corpses have been picked up on the streets, and citizens in mass convention have seen fit to condemn the action of a mob, which overlooked the guilty in a mad thirst for blood and precipitated a real race war. Perhaps the Atlanta News is now satisfied that the \$1,000 reward offered for a first-class lynching has been earned. The citizens of Atlanta have manifested their shame.

Vice-President Fairbanks was treading on delicate ground when, in the course of his speech at the dedication of the \$5,000,000 court house in Chicago, he said: "We are all members of one great family." The fact is, a recent decision of the United States supreme court in a divorce case, gave rise to a general fear in Chicago that they were in reality "all members of one great family," and the subject is painful.

The verdict of \$1,000 in favor of J. Mark Worten accomplishes as much as a verdict for \$50,000, as far as Mr. Worten is interested. He desired vindication and won it. Mr. Worten's character as a reputable lawyer and man of worth in the community has been sustained by a jury

of his peers, and he is satisfied. So is everybody else.

President Roosevelt has extended the eight hour law to all departments. Here is another opportunity for Mr. Bryan to congratulate the president.

SLAUGHTER HOUSE MAY BE ADOPTED BY HEALTH BOARD

Butchers' Association Will Ask for More Stringent Inspection of Meat.

At the meeting of the board of health tonight at the city hall, the Butchers' association will have an attorney present to aid in devising means to protect the members from unlicensed vendors of meat.

The board of health also has taken particular interest in the slaughtering houses, the methods of slaughtering and the sanitary conditions. It universally is conceded that slaughter houses in the city limits are not healthful and efforts will be made to get them located outside the city limits. It has been suggested that a central slaughter house under the supervision of the milk and meat inspector be established and require all meat slaughtered, which is to be sold in this market, to be stamped by the inspector.

The board of health will meet at 7:30 o'clock at the city hall.

KILLS SNAKE ON SUNDAY.

Connecticut Man Defends Self and Is Punished Under Blue Laws.

Danbury, Conn., Sept. 24.—Connecticut blue laws make it a crime to shoot a snake on Sunday, and they also make it a crime to sell or to buy the recognized antidote for snakebite. Walking over his farm on the outskirts of this city last Sunday in search of a lost cow, Peter Zarcone, 18 years old took his shotgun with him for protection against snakes. Attacked by an adder while he was passing through a swamp, Zarcone shot and killed the reptile. The report of his gun reached the ears of policemen sent out by the game wardens to watch for poachers, and they caused the young farmer's arrest. When Zarcone was arraigned before Judge Howard H. Scott this morning he was fined \$10 and costs. The judge said he had no doubt from the nature of the evidence before him that the prisoner had used his gun only to protect himself against the snake but the laws of the state made it a crime even to carry a gun in the open air on Sunday, and consequently he had no discretion under the law, and was obliged to punish him for carrying his weapon across the farm.

WILL POST DRUNKARDS' FACES.

Fond du Lac Saloons to Contain Photographs of "Habituals."

Lou du Lac, Wis., Sept. 24.—Habitual drunkards in Fond du Lac are hereafter to be photographed, and their photographs will be posted in every saloon in the city. A resolution to this effect has just been passed by the common council. The resolution was introduced by one of the saloon members of the council. The reason for the action, he says, is that a man whom the council might declare a habitual drunkard, might be known to only two or three saloonkeepers, and after being "posted" might go to any saloon where he was not known, and obtain drinks. The police would then arrest the innocent saloonkeeper. If every notice to saloonkeepers, forbidding them to sell liquor to a certain person, contained a picture of that person, the dealer could post it in a conspicuous place and he would then know instantly if that man applied for a drink. The task of securing pictures of drunkards and sending the notices to the saloons is placed upon the police. No photographs have yet been taken under the new act.

ASKED FOR SALT.

After Surgeons Gave Him Up as Dead in Hospital.

New York, Sept. 24.—Edward McElroen, of Yonkers, came back to life today after lying apparently dead in a hospital for half an hour with stilled respiration, a heart that had ceased to beat and a body that already had grown cold.

McElroen was taken to the hospital unconscious from two blows which Fire Commissioner Burns had struck upon his head, inflicting a compound fracture. Dr. Ruble had just begun to drill into the horribly injured skull when a fellow surgeon told him it would be useless, as the patient was dead. Dr. Ruble and he applied every known test, McElroen's heart had ceased to beat, and there was no movement of respiration. The physicians began to clean their instruments and sent for a porter to

of his peers, and he is satisfied. So is everybody else.

DEATHS OF A DAY

Mrs. M. A. Yarbro.

Mrs. M. A. Yarbro, 72 years old, died at her home 2109 Broad street, Sunday night at 6 o'clock of general debility after a lingering illness. She was born in Christian county, but came here 50 years ago and had resided in the same house during her residence here. She was a member of the First Presbyterian church and prominently associated for years in all the progressive religious work. She was a woman highly respected and generally popular. Mrs. Yarbro leaves several sons and one daughter. They are Messrs. Joseph Yarbro, Enoch Yarbro, Richard Yarbro and Miss Mary Yarbro, of Paducah; and the Rev. David Yarbro, pastor of the Presbyterian church at Sunriva, Tenn. The funeral will be conducted Tuesday morning at 9 o'clock at the residence. The burial will be in Oak Grove cemetery. The Rev. W. E. Cave, pastor of the First Presbyterian church, will conduct the services.

Alonso Taber.

Alonso Taber, 2 years old, son of Mr. M. E. Taber, employed at the Mergenthaler-Horton Basket company, died at 410 Elizabeth street Sunday morning of summer complaint. The body was buried Sunday afternoon in Oak Grove cemetery.

Mrs. James Wyatt.

Mrs. James Wyatt, wife of a prominent resident of Ingleside, in the county, died Sunday of fever after an illness of several weeks. The funeral will be held today with burial in the county.

Infant Daughter.

The five-months-old daughter of Albert Perdue died Saturday night at Florence Station of summer complaint. The funeral was held yesterday with burial at Florence Station.

BOY KILL IN PLAY; HIDES BODY

Ohio Youth Pulls Trigger as Playmate Looks Into Weapon.

Marysville, O., Sept. 24.—John Asher, the 11-year-old son of Glenn Asher, was instantly killed today by a revolver in the hands of Hale Seaman, about the same age. The boys were playing at the Seaman home, and found the pistol upstairs. Seaman shot his playmate while he was looking into the loaded weapon. David Sharpe, aged 10, was at the house, and he and Seaman dragged the body downstairs and hid it along the roadside. The remains were discovered by Mary Blackwell, who was passing along the road. She notified the authorities, who are investigating the affair.

DETERMINE COMET'S ORBIT

Californians Find It Is Elliptic With Period of 6-2-3 Years.

San Francisco, Sept. 24.—Professors Crawford and A. J. Champeaux, assisted by S. Einarson, of the astronomical department of the University of California, have just completed the determination of the orbit of the comet discovered on August 23 by Kopff at Heidelberg. The computation of the orbit proved it is elliptic with a period of only six and two-thirds years.

TWO ORDERS MADE

IN REHKOPF CASE

Extends Time of Assignee To File Schedule.

All Uncompleted Work in Shops May Be Finished to Prevent Loss of Assets.

CASES IN THE POLICE COURT

Two orders were made in the matter of E. Rehkopf Saddlery company today in county court. The first extended the time of R. J. Barber, assignee, for filing an inventory, until September 29. The stock is so large that he will not have to finish his inventory in the required time as set out in law. The second order was one empowering the assignee to finish all incomplete work in the shops. The material will depreciate in value unless the goods are finished at once. The assignee is empowered to do no more work than is necessary.

In Police Court.

John Griffin, colored, was presented in police court this morning for the alleged sale of intoxicants without a license and the case was left open. Griffin is alleged to have sold "Cream Ale" or "Pale Ale" and it is another case, where the fight is to be made over the alleged intoxicating qualities of the beverage. It is sold by a local firm, which claims and has proved it not to be. Judge Puryear will announce his decision tomorrow.

Paschall Gray, colored, charged with stealing a diamond ring from Laura Rogers, colored, was held over. Gray admitted taking the ring, but claims that a friend of his took it from him and left the city.

Other cases: Allen Robinson, colored, disorderly conduct, \$5 and costs; John Lehrer, drunkenness, \$1 and costs; George White, Dock Jackson, colored, disorderly conduct, \$25 and costs, each; Charles Wade, colored breach of peace, left open; Noah Stewart, colored, breach of peace, \$5 and costs.

Transfer of Property.

E. Rehkopf today filed a deed to the Mechanics and Farmers' Savings bank, transferring property at 210 Broadway, the consideration being \$6,500, one of the biggest real estate transfers made in some time.

Deeds Filed.

D. T. Stuart and others to J. B. Davidson, property near Twelfth and Jefferson streets, \$1 and other consideration.

J. B. and T. C. Davidson to Gira L. Robertson, property near Twelfth and Jefferson streets, \$400.

Court Notes.

Neal Overstreet was sworn in as a county deputy assessor.

While Americans take great pride and pleasure in being called "a strenuous people," it is perhaps not generally appreciated that a great many injure themselves physically—wreck nervous systems, invite premature wrinkles, gray hairs and infirmities by the hurry, worry way in which they live, neglecting in many instances proper care of the body and letting the real pleasures of life escape as a forfeit. Unrestrained strenuousness means neurasthenia ultimately.

Neurasthenia is nerve-exhaustion and that means inefficiency of the body to carry on vital functioning. Nerve centers lag; debility ensues; listlessness and fatigue reign. Pain may be felt in the back; fullness or pressure at the top of the head; sleep is broken and without refreshment; digestion notably is weak and loss of appetite constipation and distress after eating are the rule. The headache of neurasthenia is like a band around the head; ordinarily is worse in the morning and better towards the end of day, and is probably the most common of all headaches which come for treatment.

Now, drugs do not help neurasthenia; that is admitted; and physicians have long been accustomed to send their neurasthenics away from the cities to the mountains, seashore, abroad or anywhere to find new scenes and enjoy tranquil restoration. But that is expensive and there is a surer, quicker and better as well as less costly way—Osteopathy.

Osteopathy cures neurasthenia, which is but another name for nervousness, by stimulation to the nerves and the circulation.

I can show you to your satisfaction in a very few minutes why osteopathy is the sane rational cure for ALL diseases of the nerves.

Come to see me at any time between the hours of 9 and 12 in the forenoon and 2 and 5 in the afternoon. Dr. G. B. Froage, 516 Broadway. Phone 1407.

The river rose 0.5 in the last 48 hours, the gauge registering a stage of 7.1 this morning. Business at the wharf was good.

The Dunbar came in this morning with the Evansville schedules topsy-turvy. The Henry Harley got out on time Saturday and did not leave until Sunday afternoon, so the Dunbar, which should have been here Sunday, laid over in Evansville, arriving here in time to start out regularly today at 11 o'clock.

The Wash Honshell went up the Ohio river Saturday but could not get across the Sisters shoals. After coming here the Wash Honshell went on down to Cairo, and the rise in the rivers now probably will make good water at the Sisters.

The Lyda came in Saturday afternoon with the "hog pen" broken. That is the big chain brace. After this is repaired the Lyda will go up the Tennessee river after ties.

The Ranger passed up Sunday with a tow of empties for Louisville.

The Saltillo arrived from St. Louis early Sunday morning on the up trip to the Tennessee river.

The Buttrif arrived from Nashville Sunday night and is now at Brookport delivering freight. It will leave at noon today for Clarksville.

The Clyde will arrive from the Tennessee river tonight and lie over till Wednesday evening before the return trip.

The Reaper passed down Sunday morning with a big tow of coal after having been tied up on the far side of the island for 24 hours.

The Cowling carried a negro excursion from Metropolis to Smithland Sunday.

The Dick Fowler has a good Monday morning trip for Cairo and way points.

The sand barge which sank at the sand docks last week was pulled out on the ways for repairs this morning.

At the dry docks the Royal is out for repairs, and the Gate City will be taken out today when the Scotia vacates.

The ferryboat Bettie Owen is bringing many loads of hay from Illinois now.

The wharf probably is the scene of more runaways and attempted runaways than any other one place in the city. This morning a team from the Illinois bottoms kicked out of the harness, kicked each other and kicked at the deep blue sky until they felt they were absolutely free from restraint.

A Memphis special to the Engineer says: "Ferdinand B. Montana, aged 70 years, a noted pilot on the rivers of the Mississippi valley in former years, died today of heart disease. His body was picked up at Main and Front streets within a few blocks of the old wharf, where he successfully landed and pulled out with many a steamboat load of freight and passengers. He was best known in the St. Louis and New Orleans trade, although he had piloted in the White and Arkansas river trade as well as in the Ohio river."

A Pittsburg special says: "Many contractors here engaged in river work are of the opinion that the enforcement of the eight-hour law in the work of river and harbor improvements would delay the work being done on docks and dams in this vicinity from six to eight months. They say the government requires the work to be done in such a short time that it would be impossible to finish it in the time specified on an eight-hour basis. Contractors think a strict interpretation of the law would work a hardship upon the men, as they would rather work nine or ten hours a day and have a half holiday Saturday than work eight hours a day."

400 MALAYANS SLAIN BY DUTCH

Two Rebellious Princes Are Captured After Desperate Sortie.

The Hague, Sept. 24.—An official dispatch received here from Bali, an island of the Malay Archipelago, immediately east of Java, where for some time the Dutch have been conducting military operations against recalcitrant chiefs, reports the capture of Pasar, capital of the vassal state of Badong, of two princes, their women and children. The followers of the princes, numbering in all 400 men, were killed in attempting a desperate sortie. The Dutch losses were four Europeans killed and ten wounded.

STOP FOOLHARDY FEAT.

Contractor Plans to Ascend Skyscraper by Rope With Child.

Pittsburg, Sept. 24.—The police department this afternoon stopped what was intended as an unusual celebration of the finishing of the Union National bank's skyscraper here. David Sweeney, one of the leading iron-workers on the building, had arranged to be drawn by a rope, carrying his 2 1-2-year-old daughter Mildred, to the top of the building, 22 stories, or 250 feet. The ascension was to take place at the noon hour, but Director Ridgeway sent word that he would arrest everyone connected with the new building if the feat was attempted.

JEWELS and SERVANT VANISH

Milwaukeean is Robbed of Articles Valued at \$2,600.

Milwaukee, Sept. 24.—Jewels valued at more than \$2,600 were stolen yesterday from the home of Leon Philip Fensterman, a servant giving the name of Thelma Connors, who said her home was in Kansas City and who had been in the employ of the family for ten days, has disappeared. The police department has wired a description of the girl to all large cities and has received a reply from Cleveland that a similar robbery was committed there two years ago by a girl answering the same description. It is thought the woman is a professional crook.

PADUCAH REMAINS IN KITTY LEAGUE

Determination of The Present Management.

Cairo Was Awarded Second Place at Meeting Held at Vincennes Yesterday.

AMERICAN LEAGUE RESULTS

Holders of the Paducah Kitty league franchise will not release their grip and if there is a Kitty league next season Paducah will be in it, this being the determination of those who went through the season of 1906 at a loss of between \$3,000 and \$4,000. The loss was heavy, probably the greatest of any city in the league, yet the members of the Paducah association will sustain the name of the town for a baseball town even if it costs them another "wad."

Yesterday in Vincennes at the Grand Hotel a meeting of the league was held. Press dispatches do not say how many towns were represented and the only important item from the meeting is the awarding of second place to Cairo. This was done through the efforts of M. J. Farnbacher, representing Cairo. "Windy" Lotshaw is directly responsible for the act as he was returned to the game after a benching contrary to the rules of the game.

The following regarding the meeting is sent out from Vincennes:

At a meeting of the executive committee of the Kitty Baseball league here today, Cairo was awarded the protested game of June 20, with Jacksonville, which puts that city in second place and Jacksonville in third place.

After the hearing of reports, etc., the meeting adjourned to meet in January next to organize for the season of 1907. The league next season will be an eight club affair. The franchise to cities, desiring admission to the league will be granted at the January meeting.

Although reports to the contrary have been frequently printed it is expected that all, with a possible exception of two or three cities, those who now comprise the league will remain in another year.

The game today awarded to Cairo was protested the day it was played but for some reason President Gossnell withheld his decision and in his official report of the various teams' standings gave Jacksonville credit for it. Today, however, M. J. Farnbacher who represented Cairo at the meeting brought the matter before the executive committee.

The protest grew out of the fact that a Jacksonville player who had been benched for talking back to the umpire, was allowed to re-enter the game and knocked a home run which won the game for his team. The rules explicitly say that a benched player cannot re-enter the game. In President Gossnell's official standing Cairo is credited with playing 129 games, winning 68 and losing 61. The decision of the game in protest changes this to 69 won, which changes the percentage from 52.7 to 53.5. Jacksonville is shown in Gossnell's report as playing 125 games, winning 67 and losing 58. The decision changes this to 66 won and alters the percentage from 53.6 to 52.8.

Frankfort, Ind., Sept. 24.—The Kitty league barnstormers came to town yesterday morning with clear eyes and a determination to take on a victory in order to convince the folks at home that they are still a ball team. The result was that they

put up a first-class article, yet went down to defeat with the short end of a 1 to 0 score. For eight innings neither team was able to cross the pan but in the ninth Hurst drove out a double and Suttles singled, sending on a tally over the pan. Asher, of Paducah, who joined the stormers yesterday, pitched his first game for them and up to the ninth inning had allowed out one hit. The same teams play here today. The score:

Vincennes . . . 0 0 0 0 0 0 0 0 0—0
Frankfort . . . 0 0 0 0 0 0 0 0 1—1
Hits—Vincennes 5, Frankfort 3.
Errors—Vincennes 1, Frankfort 1.

Batteries—Mallicoat and Johnson for Frankfort; Asher and Quieser for Vincennes.

McClain, Mattison, nor French are hitting the ball for Evansville. All, however, are playing their usual brilliant fielding games—Vincennes Capital.

The Jacksonville Courier is one of the few papers that is knocking against Kitty league players banding together in barnstorming trips. The paper holds that it injures the league to have the misfit teams traveling about as the "champion club," etc., and the paper is right. The team traveling over the state under the name of Vincennes has done more to injure the league than anything that could be planned. There is no question but that the team is a strong one with booze cut out and the boys are not putting up the game they are capable of, notwithstanding that the team is not the one that won the championship in the Kitty, neither is it one-half of it.—Vincennes Capital.

STOPS ANY ITCHING.

Doan's Ointment Cures Eczema and Itching Piles—Paducah People Recommend It.

One application of Doan's Ointment stops any itching. Short treatment cures eczema, itching piles, salt rheum—any skin eruption or skin itching. It is the cheapest remedy to use, because so little of it is required to bring relief and a cure. Here is Paducah testimony to prove it:

Mrs. Annie Richardson, living at 320 South Third street, Paducah, says: "I have been troubled with eczema for a year or more. At times it was very sore and itched badly. I tried a great many ointments and salves of various kinds. I thought some of them were going to make a permanent cure but in a short time it would break out as bad as ever. When I saw Doan's Ointment advertised I made up my mind to give it a trial. I obtained a box at Alvey & List's drug store and began its use. It proved itself to do all that is claimed for it. It made a complete cure and up to the present time I have not noticed any signs of its return."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

IMMENSE THROG ATTENDS MEETING

Twenty-Four Thousand Plan- ters at Guthrie

Old Officers Re-elected by Association Without Opposition From Anyone.

FULL LIST OF THE SPEAKERS

Guthrie, Ky., Sept. 24.—With 24,000 people in attendance, the second big gathering of the Dark Tobacco Planters' association of Kentucky, Tennessee and Virginia held in Guthrie was practically twice as large a meeting as the one of last year. The growers of the "Black Patch" from the three states were out in force, glorifying in the wonderful success of their organization and full of the exultation of enthusiastic determination.

The big parade unique and remarkable in many features, passed through the city at 11 o'clock this morning and made its way followed by thousands of people to the fair grounds, where the speeches were made and probably the greatest barbecue of recent years in Kentucky was served.

In every respect the day was a great success, and the only regret was caused by the indisposition of Felix G. Ewing, the general manager of the association, who was forced to remain in his room at his hotel.

When the parade reached the big fair grounds the election of officers was held in the grand stand. All of the officers were re-elected as follows: General manager, Felix G. Ewing, of Glen-Raven, Tenn.; president, C. H. Fort, of Robertson county; vice-president, E. T. Bondurant, of Rice Depot, Va.; treasurer, George Snadon, of Guthrie; secretary, Mrs. N. E. Green, of Glen-Raven, Tenn.

The barbecue had been arranged on five tables, each 250 feet long. The food was placed on wooden platters and was ready when the guests arrived.

The supplies included the following remarkable items: Five thousand pounds of bread, nine big barrels of pickles, 20,000 wooden platters, 517 carcasses. Every platter was piled high and there was enough for two full meals on each. That the work of the committee was appreciated was attested by the condition of the platters half an hour after the dinner had been announced.

Among the speakers were the following: Senator Bob Taylor, of Tennessee; Congressman Ollie James, Congressman A. O. Stanley, former Congressman John H. Rhea, Lawrence Penn, C. H. Fort and Joel B. Fort.

The association now has 36,000 members, comprising, it is said, ninety-five per cent of the tobacco growers in the dark tobacco belt.

Rescue of a Merchant.

A prominent merchant of Shongou, N. Y., J. A. Johnson, says: "Several years ago I contracted a cough which grew worse, until I was hardly able to move around. I coughed constantly and nothing relieved my terrible suffering until I tried Dr. King's New Discovery. Before I had taken half a bottle my cough was much better and in a short time I was entirely cured. I surely believe it saved my life. It will always be my family remedy for colds." Fully guaranteed; 50c and \$1.00 at all druggists. Trial bottle free.

AN OUNCE OF PREVENTION
Is worth a pound of cure. There are many poor sufferers, consumptives who are hopeless of getting well—who, if they had taken care of themselves, would now be well. A cough is the foundation of Consumption. Ballard's Horehound Syrup will cure that cough. Mrs. S., Great Falls, Mont., writes: "I have used Ballard's Horehound Syrup in my family for years—my children never suffer with coughs." Sold by all druggists.

The bitter tongue sends most of its poison back into its own heart.

The Bath Comedy

By AGNES and EGERTON CASTLE

COPYRIGHT, 1900, BY EGERTON CASTLE

"Indeed, sir," she said, flashing round upon him with a glance surprisingly bright, considering her woe. "And is that how you would save my reputation?" No, I see there's nothing for it," said Mistress Kitty, with sudden composure, folding up her handkerchief deliberately and gazing up again at the chandler with the air of an early martyr. "There's nothing for it but to pay the penalty of my good nature and go live at Verney Hall between my virtuous Lord Verney and that paragon of female excellence and domestic piety, his mother."

"Now, by St. Peter," cried O'Hara, springing to his feet. "If I have to whip you from under his nose at the very altar and carry you away myself, I'll save you from that, me darling!"

"Say you so?" cried the lady, with alacrity. "Then, indeed, sir," she proceeded, with sweetest coyness, and pointed her dimple at him. "I'll not deny but what I thought you could help me when I sought you tonight. There was a letter, sir," she said, "which yesterday morning I received. 'Was signed by a lock of hair.'"

"Ah, Kitty!" cried the enraptured and adoring Irishman, once more extending wide his arms.

"Softly, sir," said she, eluding him. "Let us to business."

CHAPTER XV.

BUT you must understand," said the lady, "that you carry me off against my will."

"To be sure," said he. "Isn't poor Denis O'Hara run away with you merely to save your reputation?"

"So if I scream, sir, and give you a scratch or two, you will bear me no malice?"

"Bear you malice, is it?" said he, stopping to kiss each finger tip of the hand which he contrived somehow should never be long out of his clasp. "Me darling, sure, won't I love to feel your little pearls of nails on my cheek?"

"And spare no expense upon chaise or horses," said she.

"Eh?" cried O'Hara, while a certain vagueness crept into his gaze. "Me dear love, the best that money can produce—that money can produce," said Mr. O'Hara, and his eye rolled under the stress and strain of an inward calculation. "There's my grandfather's watch; I'm afraid the works are not up to the gold case, but it might run to 4 guineas; and there's my jeweled snuffbox that the chevalier gave my father; no dash it, that's gone! There's my silver hilted sword; I could exchange it for a black one and perhaps 5 guineas. And there's my three sets of mechin."

While he cogitated the lady smiled upon him with gentle rillery; then she popped her hand in her pocket and drew forth a well filled case.

"And did you think," said she, laying the case on the table, "that I would have the face to ask a rich lover to elope with me?"

"Faith," said she, pursuing now along his silent addition, "there's the gold punch bowl too! I vowed as long as I'd a drop to mix in I'd never part with the thing; but, sure, I little guessed what was in store for me; that will make 20 guineas or more. Put up your money, Kitty. I'll not consent to be paid for carrying you off, except," said he, "by your sweet lips."

"Now listen, sir," she cried, lifting up her finger, "you're a poor man."

"I am that," said he.

"And I," said she, "am a rich woman."

"Oh!" cried he, "Kitty, my darling, and sure that's the last thing in the world I'd ever be thinking of now. When I laid my heart at your feet, my dear, 'twas for your own sweet sake, with never a thought of the lure. What's money to me?" said he, snipping his fingers. "Not that, Kitty, darling! I displace it. Why, he went on, with his charming infectious smile, 'I never had a gold piece in my pocket yet but it burned a hole in it.'"

She listened to him with a curious expression, half contemptuous, half tender. Then she nodded.

"I will believe you," said she. "Come, come, Denis, don't be a fool. Since the money is there, and we know for what purpose, what matters it between you and me who puts it down?"

"Ah," he cried, with a sort of shame, abandoning his light tone for one of very real emotion, "you're an angel! I'm not worthy of you, but I'll try."

The lady looked embarrassed.

"I profess, sir, I cannot have you going off your knees again," she cried sharply, "and it's getting late, and the business is settled, I think."

"Leave it to me," said he. "Sure, I could do it blindfold."

"Have the post chaise at the corner of Bond street and Quilt street. 'Tis the darkest in Bath, I think."

"Aye, and the relay at Devizes, for we'll have to push the first stage."

"And after?" said she, and looked at him doubtfully.

"And after that—London. And sure I know an old boy in Covent Garden that will marry us in a twinkling."

She nibbled her little finger. The rapture evoked on his countenance by this last prospect was not reflected upon hers.

"But you forget," said she, "that I am to be abducted against my will, and what will people say if I marry you at the end of the journey?"

"Oh, faith," said he, without a shade of uneasiness, "shouldn't I be a poor

fellow if I did not contrive to persuade you on the way? And then what would the world say if you did not marry me after traveling all night with such a wild Irish devil? Sure," said he, with a wink, "what else could a poor woman do to save her reputation?"

"True," said she musingly, and tapped her teeth.

She tied on her mask once more and drew up her hood, passive, in her mood of deep reflection, to his exuberant demonstrations. At the door she paused and looked back at him, her eyes strangely alluring through the black velvet peephole, her red lips full of mysterious promise beneath the black lace fall.

"And I never asked," said she in a melting tone, "after your wound. Does it hurt you? Will you be able, think you, to face the fatigues tomorrow night?"

"Ah, I have but one complaint, Kitty," he cried, "and that's my mortal passion for you. And when a man's weak with love," he said, "sure it's then he's the strength of twenty."

"Not a step farther," said she, "than this door. Think of the chairmen and Bath gossip. Good night."

CHAPTER XVI.

AND now, child what's the town talk?" said Mistress Bellairs.

The nights were chilly, and a log crackled on the hearth. Kitty in the most charming dishevelled state of a pink slippered foot alight toward the blaze.

"La, ma'am," said Miss Lydia as with nervous fingers she uncoiled one powdered roll and curl after another, "all the morning the gossip was upon Sir Jasper's meeting with Colonel Villiers at Hammer's fields. And all the afternoon—" She paused and poised a brush.

"All the afternoon? Speak, child. You know," said her mistress piously, "that I had to spend my evening by the side of a dear sick friend."

"Well, ma'am," said the maid, "the talk is all about your own marriage with the young Lord Verney."

"Mercy, girl," cried the lady, with a little scream, "you needn't hit my head so hard with those bristles! What's taken you? And what do people think of that?"

"Why, ma'am," said the abigail, yielding her brush more tenderly and permitting her irritation to betray itself only in the sharp snap of her voice, "my Lord Verney's man says he plies any one that will have to go and live with her old husband at Verney Hall."

"Ha!" said Kitty, and gave herself a congratulatory smile in the hand glass.

"And Mr. Burrell, ma'am—that Lady Maria Frideaux's butler, and a wise old gentleman he is—he says the marriage 'll never take place, ma'am, for neither his own husband nor the lady at Verney Hall would allow of it, ma'am."

"Oh, indeed?" cried Mistress Bellairs, stiffening herself. "That's all you know about it! Lydia, you untruthful, impertinent girl, how dare you tell me such a story?"

"I'm sure I beg your pardon, ma'am," said Lydia, smiling. "I'm sure I up and told Mr. Burrell that if you'd set your heart on wedding such a poor wretch as Lord Verney—I beg pardon, ma'am; I'm sure he'll be a very nice young nobleman when his beard begins to grow—'twas not likely a deaf old cat like his mistress could prevent him. And I told Lord Verney's man, ma'am—and an impudent fellow he is—that you'd soon teach the dawdler her place once you were mistress in Verney Hall."

"Well, well," said the lady, mollified, "and what says the rest of your Bath acquaintance?"

"Squire Juniper's head coachman says his master 'll drink himself to death, as sure as eggs, on the day that sees your another's, ma'am. He's been taking on terrible with madeira ever since he's heard the news. And the marquis's running footman, he says, 'That Lady Flyte 'll have it all her own way with his lordship now, and more's the pity, for,' says he, 'her husband's not fit to hold a candle to the widow.' Excuse the language, he knows no better; his strength is mostly in his legs, ma'am. And Mr. Stafford's jockey says, ma'am, that in his opinion you're a lady as will never be drove again on double harness."

"Did he say so, indeed?" said Mistress Bellairs reflectively. "Well, my good creature, and what say you?"

"La!" said the maid, and the brush trembled over her mistress's curls. "I say, ma'am, that if you was to make such a sacrifice, you so young and lovely and so much admired, I humbly hopes you might pick out some one livelier than my Lord Verney."

"Now, whom," said Mistress Bellairs, in a tone of good humored banter, "would you choose, I wonder? What would you say to the marquis, Lydia?"

"Oh, ma'am! His lordship is a real nobleman—as the prize fighters all say—and a better judge in the cockpit, Mr. Bantam, the trainer, says, never breathed, drunk or sober; and no doubt when he's sober, ma'am, he'd make as good a husband as most."

"Well, well, girl, enough of him. What of Mr. Stafford, now?"

COOPER ARRIVES IN THE MOUND CITY

Unique Character Worth Millions Reaches St. Louis.

Has Proved a Sensation in Eastern Cities and Was Subject of Much Notoriety.

HE GIVES FREELY TO CHARITY.

St. Louis, Sept. 23.—L. T. Cooper, the man who has created a sensation throughout the east, and who is rapidly acquiring a national reputation, arrived in St. Louis yesterday.

Cooper is president of the Cooper Medicine Company, of Dayton, Ohio, and has made a fortune within the past few years estimated at several millions, by the sale of two preparations, which are claimed to be very unusual, and which are said to accomplish remarkable results.

Cooper spends his time traveling from city to city introducing these remedies and in this manner he has acquired the fortune he now possesses.

Cooper is said to be a very remarkable character, and a man with eccentric ideas; one of his beliefs is that a certain part of his income should be devoted to charitable work, and he is said to give thousands of dollars to the poor in each city that he visits.

His charitable work is original, as he is continually devising new methods of making money give the most pleasure and relief possible.

The most remarkable feature of Cooper's work is what is known as his "Three minute removal of deafness." In cities visited by him within the past year he has appeared nightly before large audiences and offered to make any one hear, within less than three minutes, if they would come up on the stage. Reports from Pittsburgh, Cincinnati, Detroit, Cleveland and Louisville, and other cities, seem to indicate that Cooper actually did as he claimed.

Each night he is said to have removed, before thousands of people, cases of deafness in about three minutes' time with one of his preparations. The account of his work appeared in all the leading "dailies" of the east, and people have flocked to him from all parts of the country. The sale of his preparations is said to reach enormous proportions within a week after Cooper arrives in a city. Whether he will be as successful in St. Louis as elsewhere remains to be seen.

TOBACCO COMPANY WINS FROM STATE

Trust Is Not Liable For The Reassessment.

Entries for State-Democratic Primary Closed—List of Candidates for Office.

BALL'S CAPTORS ARE INDICTED

Frankfort, Ky., Sept. 24.—Chief Justice Hobson handed down an opinion at yesterday's session of the court of appeals upholding judgment of the Daviess circuit court and of the Daviess county court in a case of the commonwealth of Kentucky against the American Tobacco company, in which it was sought to assess tobacco of the value of \$800,000 as omitted property, and in which the inferior courts declined to list the property. The action was instituted by an agent for the commonwealth seeking to have the property listed for taxation for the years 1900 and 1904, both inclusive, at a valuation for each year of \$800,000. The county court dismissed the proceeding, it being shown that the tobacco in question had been properly listed for the years mentioned, but at a lower valuation than \$800,000. The commonwealth appealed to the circuit court, which sustained the county court in its ruling in the matter. An appeal was taken to the court here.

List of Entries.

Frankfort, Ky., Sept. 24.—The list of candidates for nominations in the Democratic state primary closed at midnight, according to the time limit imposed by the Democratic committee. The candidates will, however, have until October 1 to put up their money. The following are the candidates who have notified the committee of their intention of being candidates:

For United States Senate—James B. McGreevey and J. C. W. Beckham.
For Governor—S. W. Hager and N. B. Hays.
For Lieutenant Governor—South Trimble.
For Attorney General—Lillard H. Carter and J. K. Hendrick.
For Auditor—Henry B. Hines and Henry M. Bosworth.
For Secretary of State—Hubert Vreeland.
For Treasurer—Raby Laffoon and June Gayle.
For Superintendent of Public Instruction—E. A. Gullion and M. O. Winfrey.
For Clerk of Court of Appeals—John B. Chenault and W. B. O'Connell.
For Commissioner of Agriculture—J. W. Newman and R. C. Crenshaw.

Indicted for Murder.

Middlesboro, Ky., Sept. 24.—The grand jury in session at Lee county, Va., returned indictments against the Kentucky officers who captured Frank Ball at Rose Hill on August 9. The men are charged with the murder of John Lee. Lee was killed during the fight between Ball and the officers. Those indicted are: Rice W. Johnson, sheriff of Bell county; R. L. Givens, Gordon Givens, Newton J. Wilburn, John Glynn, of Middlesboro; James Rollins, Ike Vanbisher and John Wilson of Pineville, deputy sheriffs. It is said that Gov. Swanson will request the requisition of these men of Gov. Beckham. The members of the party who went to assist the sheriff and his posse have been indicted as accessories to the murder of Lee. This party was composed of some of the leading business men of Middlesboro and Pineville.

Tobacco Barn Burns.

Mayfield, Ky., Sept. 24.—The large and commodious tobacco barn on the Robbins farm, south of the city, recently purchased by ex-Sheriff J. N. Harris was destroyed by fire Friday afternoon. In this barn was a 14-acre crop of fine new tobacco which was being "dried" when it caught. The loss will fully reach \$2,000, as the tobacco, being a very fine quality, would reach about \$1,500 and the building was easily worth \$500. The crop of tobacco belonged to Jim Rye, Dublin and Ed Chittenden and the loss will fall quite heavy on them.

Stricken on Father's Grave.

Owensboro, Ky., Sept. 24.—Mrs. T. S. Kendall, wife of Dr. T. S. Kendall, of Yelvington, this county, is still in an unconscious condition as the result of a paralytic stroke received Sunday afternoon while kneeling on the grave of her father in the cemetery of Bethlehem Methodist church near Yelvington.

OPEN-PUBLICITY THE BEST GUARANTY OF MERIT.

When the maker of a medicine, sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly publishing broadcast as well as on its bottle wrappers, a full list of all its ingredients in plain English, this action on his part is the best possible evidence that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the closest scrutiny and the most thorough investigation. Dr. Pierce's Favorite Prescription for the cure of the weaknesses, periodical pains and functional derangements of the organs distinctly feminine, is the only medicine put up for sale through druggists for woman's special use, the maker of which is not afraid to take his patients into his full confidence by such open and honest publicity.

A glance at the published ingredients on each bottle wrapper will show that it is made wholly from native, American, medicinal roots, that it contains no poisonous or habit-forming drugs, no narcotics and no alcohol—pure, refined glycerine, of proper strength being used instead of the commonly employed alcohol, both for extracting and preserving the active medicinal principles found in the roots of the American forest plants employed. It is the only medicine for women's peculiar diseases, sold by druggists, that does not contain a large percentage of alcohol, which is in the long run so harmful to women's delicate, nervous system. Now, glycerine is perfectly harmless, and serves a valuable purpose by possessing intrinsic value all its own, and besides it enhances the curative effect of the other ingredients entering into the "Favorite Prescription."

Some of the ablest medical writers and teachers endorse these views and praise all the several ingredients of which "Favorite Prescription" is composed—recommending them for the cure of the very same diseases for which this world-famous medicine is advised. No other medicine for women has any such professional endorsement—worth more than any number of ordinary testimonials. If interested, send name and address to Dr. E. V. Pierce, Buffalo, N. Y., for his little book of extracts from the works of eminent medical writers and teachers, endorsing the several ingredients and telling just what Dr. Pierce's medicines are made of. It's free for the asking.

Thomas, blew out his brains with a regulation U. S. A. Colts revolver tonight. The deed was committed in the rear of a saloon near the fort. During the Spanish-American war Doherty was given a medal for gallantry in the charge up San Juan hill and was publicly complimented by the regimental commander. He had been in the service fourteen years.

To Promote Traction Lines.

Lexington, Ky., Sept. 24.—Representative citizens of the three counties of Fayette, Bourbon and Bath met in the city Tuesday and decided to raise a guarantee fund of \$100,000 for the building of the proposed electric traction line between Lexington and Sharpsburg, Bath county. Of this amount \$40,000 is to be raised in Fayette, \$30,000 in Bourbon and \$30,000 in Bath.

MAJORITY OF PATIENTS WOMEN

Mrs. Pinkham's Advice Saves Many From This Sad and Costly Experience.

It is a sad but certain fact that every year brings an increase in the number of operations performed for Piles and Itching of the private parts. More than three-fourths of the patients lying on those snow-white beds are women and girls who are awaiting or recovering from operations made necessary by neglect.

Every one of these patients had plenty of warning in that bearing down feeling, pain at the left or right of the abdomen, nervous exhaustion, pain in the small of the back, pelvic catarrh, dizziness, flatulency, displacements or irregularities. All of these symptoms are indications of an unhealthy condition of the female organs, and if not heeded the trouble may make headway until the penalty has to be paid by a dangerous operation, and a lifetime of impaired usefulness.

Miss Luella Adams, of Seattle, Wash., writes:

"About two years ago I was a great sufferer from a severe female trouble, pains and headaches. The doctor prescribed for me and finally told me that I had a tumor and must undergo an operation if I wanted to get well. I felt that this was my death warrant, but I spent hundreds of dollars for medical help, but the tumor kept growing. Fortunately I corresponded with an aunt in the New England States, and she advised me to take Lydia E. Pinkham's Vegetable Compound, as it was said to cure tumors. I did so and immediately began to improve in health, and I was entirely cured, the tumor disappearing entirely, without an operation. I wish every suffering woman would try this great preparation."

Just as surely as Miss Adams was cured of the troubles enumerated in her letter, just so surely will Lydia E. Pinkham's Vegetable Compound cure other women who suffer from female troubles, inflammation, kidney troubles, nervous excitability or nervous prostration.

Mrs. Pinkham writes all young women who are ill to write her for free advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Address, Lynn, Mass.

PREPARE FOR COLD WEATHER

IT is a source of great satisfaction to us to be able to offer to our patrons such a magnificent line of Heaters as we have secured for this season. And best of all, there is not a heater shown which has not been sold in Paducah for years. They're all old favorites--tried and tested; your friends and neighbors own them and can tell you about them--how economical, how efficient they are. Each heater has its own distinctive features. Some patented idea makes one or the other of these stoves just the one needed for your conditions. We want you to see our line and let us explain their merits.

ESTATE OAK

There is the Estate Oak, with its patented jointless ash box, molded all in one piece, absolutely air tight as long as the stove lasts, and holding a full twenty-four hour accumulation of ashes; its double strength single fire pot, its smoke curtain, its screw draft, register, effective hot blast attachment, etc.

The Radiant Estate

Is exclusively a hard coal heater of triple-flue construction. The heat is brought forward through the two outer flues and then passes back and out through the center flue. It has a very large radiating surface and fine draft regulation.

Be sure to see this Stove.

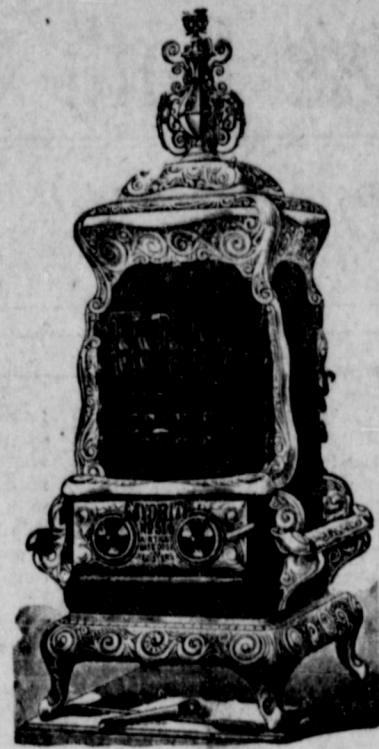

MOORE'S AIR TIGHT

Is substantially a small furnace, surrounded by an open ornamental casing. The stove proper is made of a few plain heavy castings, put together solely with the idea of producing the greatest possible amount of heat. There are numerous patent features of the Moore Heater which will appeal to you at once when you examine it.

Favorite Base Burner

Is probably the most satisfactory moderate priced heater on the market. It has a large ash receptacle and a liberal radiating surface. The draft registers being ground, gives you complete control of the fire.

You'll make a fuss over this stove.

THE ESTATE OAK RADIATOR
Is nothing more than an Estate Oak placed within an ornamental jacket. Easily kept polished. It makes a handsome parlor stove.

NEWS NOTES FROM SUNDAY PAPERS.

The Democratic committee of the Third railroad commissioner's district yesterday declined to call a primary for the selection of a candidate on the Democratic ticket, the call for the meeting being declared void by the chairman after more than an hour of argument and discussion. McD. Ferguson, who favored a primary, expressed himself, after the meeting, as being willing to meet his opponents in a convention next spring.

Delegates to the Eleventh district Democratic congressional convention were chosen in all the counties in that district, the delegations in the majority of the counties being unopposed. No one has announced as a candidate for the nomination but several names will be put before the convention, which meets in London on next Wednesday.

Senator Albert J. Beveridge, of Indiana, in a speech at Chicago, declared vigorously for more stringent government regulation of trusts and railroads and predicted also that at no distant day Cuba must come under

United States rule. He spoke strongly of the probability of early intervention by this government.

According to a computation made at the general land office the total receipts of the office for the fiscal year ending June 30, 1906, are \$7,585,523, an increase over the preceding year of \$567,712. The total area of land disposed of was 19,431,187 acres.

wealthy mill owner, who seeks to crush out the independence of his daily associates. The play, of course, possesses the conventional hero and the fun is furnished by several uncommon comedy characters. Elmer Walters usually gives his plays adequate stage settings and it is said "Just Struck Town" is not lacking in that direction.

"In Old Kentucky."

Plays may come and plays may go, but "In Old Kentucky" will doubtless go on forever. No more popular theatrical attraction visits this city than this drama of the Blue Grass state. No one seeing the play now in its fourteenth season, with an entirely new and elaborate scenic investiture and presented by a strong company, can question for a moment that it is as good, as fresh and as inspiring today as it ever was. "In Old Kentucky" is a genuine melodrama of the truest sort, clean, sweet and wholesome, with abundant heart interest, swift action, colorful dialogue and thrilling situations. It will be given at The Kentucky Friday night.

Manager of The Kentucky offers as the attraction at The Kentucky for Thursday night Mr. and Mrs. John T. Powers, "The Players," in S. W. Pascoe's new successful musical comedy, "She Looks Good to Father." In this play Mr. Pascoe presents a comedy entirely new in character, full of original ideas and conceded by well known critics to be the best farce

produced in years. The cast is a strong one, containing some clever specialty people, who introduce several bright up-to-date musical num-

"Happy Holligan's Trip Around the World," with its avalanche of novel features to divide interest with a plot of extravagant fun and with song creations of charm, is to be the attraction next Wednesday night at The Kentucky.

HAD FINE TIME.

Paducah Delegates See Much of Milwaukee.

Misses Edna and Myrtle Morgan, daughters of Mr. Ed Morgan, have returned from Milwaukee, where they attended the annual convention of the Ladies of the Brotherhood of Locomotive Firemen. They had an enjoyable time and through the courtesies of the chief of police of Milwaukee took automobile rides several times, and were royally entertained by the police department. Chief of Police James Collins is indirectly responsible. He met the Milwaukee chief at Hot Springs during the annual convention. He wrote a letter of introduction to the Milwaukee chief and every favor possible was shown the Paducah young ladies.

AND on that day we will show the greatest aggregation of fine clothes for ladies ever brought to the city of Paducah. Weeks and days have been spent in scouring the greatest markets in this country to secure for you the newest swellest and finest garments, and we can say with- equivocation that our efforts have been crowned with much success. On the day set apart for showing these beautiful Suits, Cloaks, Opera Coats, Shirt Waists, Skirts, Silk Auto and Rain Coats. We would gladly welcome every lady in or near Paducah to visit our store. Not alone for the purpose of buying, but to see what the city of Paducah has together for her ladies who choose to wear as good as the best. You are aware of the fact that we only cater to those who wear both good and pretty clothes, and now we desire to state: A look will be over convincing that we have made preparations and purchases that will be most pleasing. We make no charge for alterations, nor do we allow any clothes to leave our store unless they are perfect fitting.

Theatrical Notes

Big Crowd at Park.

"Dare Devil Dennis" made a balloon ascension at Wallace park yesterday and the crowd that witnessed it, the first balloon ascension in Paducah in years, was immense. Chief of Police Collins, Detective Moore, the park policeman, and several others in authority were not able to keep the crowd from inside the ropes. It was only after a delay of a half hour that the big gas bag left the ground, but the ascension was perfect and notwithstanding the shower, which began as Dennis left the ground, the people stood and watched until the parachute was lost to view behind the trees. Besides the balloon ascension the Paducah military band was featured as an attraction. It was a gala day at the park and probably one of the largest crowds in the history of the park was assembled there.

"Just Struck Town."

It is said there is a sweet, wholesome spirit, romantic flavor, busy dialogue and genial fun in Elmer Walters' peculiar Southern Indiana romance, "Just Struck Town," which will be seen at The Kentucky Tuesday night. The plot deals with con- ungenial arising from the custom of wicked father, a headstrong

history of the Baptist church last winter, was in Paducah Saturday and held prayer services at the grave of his deceased fellow minister, the late Rev. John Cheek. Many friends of the departed minister gathered at the grave and many beautiful floral designs were placed on the grave. The Rev. Cates came here from Mayfield where he closed a revival.

AN EYE GLASS SHOULD FIT LIKE A GLOVE

It should mould itself to the anatomy of the nose—hold the lens accurately and securely before the eyes. It should be completely secure, inconspicuous and neat. The "Peerless Eye Glass" is the only eye glass that will do all this.
